### Memorandum

To: All Recovery Plan A Participants

From: Gloria McCormick, Fund Administrator

Re: Coverage for At-Home COVID-19 Tests

Date: March 21, 2022

Effective January 15, 2022, the Fund covers FDA-approved *at-home* COVID-19 tests, without participant cost-sharing, preauthorization, or medical management, during the public health emergency. [Click here to download a PDF with information from the Fund's pharmacy benefit manager, Express Scripts, about this benefit.](#) Coverage is available for tests purchased on or after January 15, 2022, limited to eight tests per 30-day period per covered individual. The Express Scripts program includes options to get tests at participating pharmacies (at no cost to you), to order tests for direct shipment to you (at no cost to you), and to submit claims for reimbursement (up to \$12) after you purchase tests from a non-participating pharmacy or other established retailer.\* The Fund does not reimburse for tests purchased from sellers that use an on-line auction or resale marketplace, or from a private individual via an in-person or on-line sale.

*As a reminder, you also can order four free at-home COVID-19 tests per household from the federal government at [www.covidtest.gov](http://www.covidtest.gov) for direct shipment to you.*

Please contact the Fund Office 212-245-4802 or [hbp@local802afm.org](mailto:hbp@local802afm.org) or Express Scripts (at the phone number on the back of your ID card) if you have any questions.

\* The \$12 limit does not apply to tests purchased from pharmacies or established retailers during the period from January 15 – January 27, 2022.
